

INTRODUCTION TO TRADES

An introduction to trades within the

BUILDING INDUSTRY

Practical course with underpinning theory delivered at ITeC's Construction Hub

Practical activities working on your own tasks and in small groups.

Work together, communicate and build the skills required to engage in the building industry.

Apply individual and group problem solving skills to complete work on time.

INTRODUCTION TO TRADES

This course provides skills training in a wide range of building trades.

- **CARPENTRY**
- **JOINERY**
- **TILING** (Including basic waterproofing repairs)
- **LEVELLING**

Successfully completing this course will provide the core industry skills and a foundation to employment in the building industry including a pathway to an apprenticeship.

Supported by

Illawarra >> ITeC <<

The NSW Department of Education has recognised our organisation as a High Performing Provider.

Foundation skills incorporated into this course are working effectively while planning and preparing the projects, applying and following safety requirements, measuring, calculating and levelling the tasks and handling materials for each task.

SAFETY:

Learn and apply Work Health and Safety (WHS) requirements and regulations including:

- Identifying hazards
- Assessing and controlling risks
- Following Safe Operating Procedures (SOPS) for tools and equipment.
- Correctly fitting and using a range of Personal Protective Equipment (PPE)

TOOLS, EQUIPMENT & MATERIALS:

Learn the correct use, handling and safe operating procedures of various trade tools and their required maintenance including:

- Compound mitre saw
- Electric sanders
- Levelling tools
- Tiling tools
- Chisels, bevels and squares

CAREER OPPORTUNITIES

Enhance opportunities to obtain an Apprenticeship or work as a labourer in the building industry.

PROJECTS:

The projects allow each student to plan and organise their tasks including measuring, calculating material requirements and cutting materials, using a range of hand power tools and equipment.

Builds time management skills to keep their project on track and to a standard required in the building industry.

On successful completion of this course you will receive the **CPC20220 Certificate II in Construction Pathways**

Duration: 13 weeks. 3 days per week (Monday to Wednesday)

Time: 8:30am - 4:00pm

Cost: FREE or LOW COST* (eligibility criteria applies)

Location: ITeC's Construction Workshop, Coniston (Wollongong)

Contact ITeC for course start dates on 02 4223 3100

* This training is subsidised by the NSW Government
